

Summer Series Race #2, May 18, 2021

Sorry for the confusion tonight. We expected to have use of the SW track tonight but there was a playoff lacrosse game on the field. So we set up a quick road course from the back of the parking lot and did our best with that. It was 1.3 miles so all virtual times were adjusted to the 1.3 mile distance. Since this was a team run the runners were assigned a random number to determine teams. With an odd number of runners, one person's time was doubled to make a team. Results are below. In two weeks we meet at Codorus State park, Marina Road, disc golf parking lot for a 3 mile predicted time run. Thanks to all for your help and participation.
